

FORT AND ROOM FOR SIX

more legroom in both the front and rear seating, and a redesigned seat for extra comfort plus seating for six.

As an oversize glove box, three tie-downs and a space for smaller items—the competition. There's also a 28-gallon/106-ltr. capacity fuel tank and a heated seat.

PROTECTION

Options allow you to soak up the bumps the trail can throw at you, and a roll-over protective structure (ROPS) for extra adjustability for cabs.

LEGENDARY SMOOTH INDEPENDENT REAR SUSPENSION (IRS)

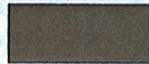

Our proven IRS, with the longest suspension travel in its class, keeps the ride smooth, with adjustable preload and two top-mounting points for each shock, which let you stiffen the suspension for heavy loads.
